DETOURS SCHEDULED ON JOLIET ROAD RAMP FOR BRIDGE REPAIR WORK AS PART OF THE CENTRAL TRI-STATE TOLLWAY (I-294) PROJECT

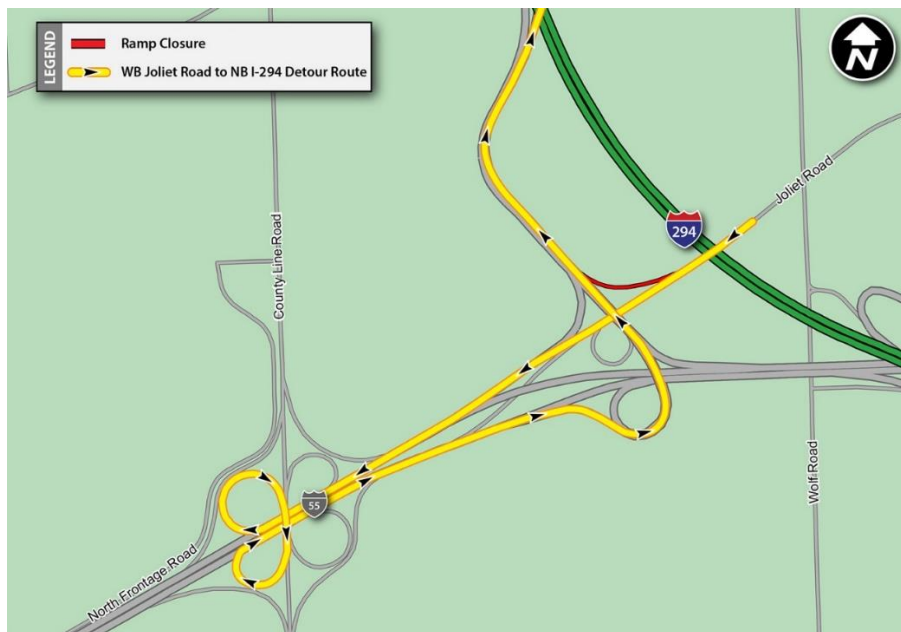

Ramp closure scheduled for two weeks in August and September for bridge deck and ramp repairs

DOWNERS GROVE, IL – A two-week closure and detour of the ramp connecting westbound Joliet Road to the northbound Tri-State Tollway (I-294) is scheduled to begin in August and continue into September for ramp bridge repair work as part of the Central Tri-State Tollway (I-294) Project.

Electronic message and construction signage will be put in place in advance to alert drivers on Joliet Road and I-294 to the construction work zones, ramp closures and detours. Up-to-date information regarding lane closures will be available in the Illinois Tollway's [Daily Construction Alerts](#). All work is weather dependent.

On Sunday, August 28, beginning at 8 p.m. the ramp from westbound Joliet Road to northbound I-294 is scheduled to close with a posted detour that will direct traffic to the Countyline Road Interchange via I-55 to access northbound I-294. See detour map below.

The Tollway's bridge repair work includes removing and replace existing concrete on the ramp bridge over Sewage Disposal Road, as well as repairing the bridge deck, substructure and approach slabs.

Local road closures in this area are being coordinated with the Illinois Department of Transportation, Cook County Department of Transportation and Highways, Village of Burr Ridge and the Village of Indian Head Park, as well as local fire and police departments.

Information about the Central Tri-State Tollway (I-294) Project is available on the Tollway's website at www.illinoistollway.com in the Projects section.

In 2022, the Tollway's work in the I-55 Interchange area will continue the rebuilding and widening of I-294 between 75th Street and I-55. As part of this work, the ramp connecting I-55 to northbound I-294 will be reconstructed, along with the I-294 bridges over I-55, Wolf Road, Joliet Road and Flagg Creek. Additional work includes the reconstruction of the Plainfield Road Bridge over I-294 and the northbound ramp to the Hinsdale Oasis. Construction in this area is scheduled to be complete in 2025.

The \$4 billion Central Tri-State Tollway (I-294) Project is reconstructing and widening the roadway between Balmoral Avenue and 95th Street to provide congestion relief, update old infrastructure to meet current and future transportation demand and address regional needs. This work is part of the Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*. More than 220,000 vehicles use the Central Tri-State Tollway daily.

Work Zone Safety

Construction zone speed limits are in effect in all construction zones 24/7 and drivers should continue to watch for changing traffic patterns and use caution, especially when workers are present. On Joliet Road, a 35 mph work zone speed limit is in effect. On I-294, a 45 mph work zone speed limit is in effect throughout the construction season.

The Illinois Tollway reminds motorists that the "Move Over Law" requires motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated. If you see flashing lights ahead, please move over or slow down.

Illinois State Police have zero tolerance for drivers speeding in work zones or failure to comply with the Move Over Law. The minimum penalty for speeding in a work zone is \$250 with up to a \$25,000 fine and a 14-year jail sentence for hitting a roadway worker. Penalties for failure to slow down or move over for a vehicle on the shoulder with flashing lights includes up to a \$10,000 fine, 2-year suspension of driving privileges and jail time, in extreme cases.

About Move Illinois

The Illinois Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*, is improving mobility, relieving congestion, reducing pollution, creating as many as 120,000 jobs and linking economies throughout the region. The first 10 years of *Move Illinois* are on schedule and within budget, delivering the rebuilt and widened Jane Addams Memorial Tollway (I-90) as a state-of-the-art 21st century corridor and opening a new interchange connecting the Tri-State Tollway (I-294) to I-57. Progress continues on projects addressing the remaining needs of the existing Tollway system, delivering the Elgin O'Hare Western Access Project and reconstruction of the Central Tri-State Tollway (I-294).

About the Illinois Tollway

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
