

*Move Illinois:
The Illinois Tollway Driving the Future*

NEWS

FOR IMMEDIATE RELEASE

May 17, 2018

**WEEKEND OVERNIGHT LANE CLOSURES SCHEDULED
ON TRI-STATE TOLLWAY (I-294) FOR 159TH STREET INTERCHANGE WORK**

*Temporary, full closures planned for bridge beam removal
as part of interchange improvement project*

DOWNERS GROVE, IL – Temporary, overnight lane closures are scheduled this weekend on the Tri-State Tollway (I-294) at 159th Street in Markham for bridge replacement work.

Bridge beam removal will be scheduled during overnight hours to minimize the impact on traffic. Electronic message signs will be put in place in advance to alert drivers. The temporary closures are necessary to provide a work zone and safely accommodate the repairs at the 159th Street Bridge.

Weather permitting, on Saturday, May 19, two northbound lanes on I-294 are scheduled to close at 7 p.m. with a third lane closing at midnight. Intermittent, full closures of northbound I-294, each lasting 15 minutes, are scheduled to begin at midnight, for bridge beam removal. All lanes on I-294 are scheduled to reopen by 10 a.m. on Sunday, May 20.

A second night of closures is scheduled for the southbound lanes on Sunday, May 20. Two lanes are scheduled to close at 7 p.m. with a third lane closing at midnight. Intermittent, full closures of southbound I-294 are scheduled to begin at 11 p.m. In addition, on the ramp connecting westbound 159th Street to southbound I-294, intermittent closures are also scheduled during this time. All lanes are scheduled to reopen by 7 a.m. on Monday, May 21.

If the work cannot be completed during this time, closures will be scheduled overnight Monday, May 21, and Tuesday, May 22.

Traffic on 159th Street is currently shifted and reduced to one lane in each direction.

In 2018, the Illinois Tollway has scheduled improvements at the 159th Street Interchange to coordinate with future local improvements planned for 159th Street. Work will include rebuilding the existing 159th Street Bridge and reconstructing four ramps at the 159th Street Interchange: southbound I-294 to eastbound 159th Street, eastbound 159th Street to northbound I-294, northbound I-294 to westbound 159th Street and westbound 159th Street to southbound I-294. Lighting and drainage structures will also be upgraded.

The 159th Street Bridge Project will extend the life of the interchange, increase traffic capacity and provide safe and convenient travel for Tollway customers. More than 13,000 vehicles use this interchange daily.

Maps, construction and detour information about the 159th Street Bridge Project is available on the Tollway's website at illinoistollway.com via the Interactive Tollway Map and under "Projects Overview" in the Explore Projects section.

-more-

The project is being coordinated with the Illinois Department of Transportation, Cook County and local fire and police departments.

Work Zone Safety

The Illinois Tollway is committed to ensuring that 159th Street and the Tri-State Tollway (I-294) remain safe for both drivers and workers during construction, which is part of the agency's overall commitment to roadway safety.

Construction zone speed limits are in effect in all construction zones 24/7 and drivers should continue to watch for changing traffic patterns and use caution, especially when workers are present. On I-294, a 45 mph work zone speed limit is in effect throughout the construction season.

The Illinois Tollway reminds motorists that the "Move Over Law" requires motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated. If you see flashing lights ahead, please move over or slow down.

Illinois State Police have zero tolerance for drivers speeding in work zones or failure to comply with the Move Over Law.

The minimum penalty for speeding in a work zone is \$375. Posted signs advise drivers of a \$10,000 fine and a 14-year jail sentence for hitting a roadway worker.

Penalties for failure to slow down or move over for a vehicle on the shoulder with flashing lights includes up to a \$10,000 fine, 2-year suspension of driving privileges and jail time, in extreme cases.

About Move Illinois

The Illinois Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*, is improving mobility, relieving congestion, reducing pollution, creating as many as 120,000 jobs and linking economies throughout the region. The first six years of *Move Illinois* are on schedule and within budget, delivering the new Illinois Route 390 Tollway and a rebuilt and widened Jane Addams Memorial Tollway (I-90) with its new SmartRoad corridor, as well as opening a new interchange connecting the Tri-State Tollway (I-294) to I-57. Progress continues on projects addressing the remaining needs of the existing Tollway system, delivering the new I-490 Tollway Project and reconstruction of the Central Tri-State Tollway (I-294) and planning for emerging projects.

About the Illinois Tollway

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
